

Exhibitor Placements—based on, and determined by, Exhibitor needs for a Banner support and Power Access.

Power Access:

Power is access from outside the Hockey Ice Area, in the Arena Perimeter. Behind the Boards and the Glass. You will need longer extension cords than usual, Up to 100 feet.

Red Square Boxes Represent Approximate Locations of 20 Amp Receptacles that may use either 15A or 20A Cords to connect.

Green Square Boxes Represent Approximate Locations of 15 Amp Receptacles for 15 Amp Cords.

Exhibitors Load-in begins at 07:00, and last Exhibitor should be in the building by 09:00.

Load in Sequence (Detail Load in Sequence is Separate) will be based on:

Farthest in Exhibitors from the Zamboni room Access—(Upper Left Corner) Load First to avoid Cross Traffic.

Exhibitors needing Power and to put up banners, will load in around the edges, and remaining exhibitors will load in the center. This means—Ron Brough—will be First in, and last in will be Currie Gardner.
