# Electric Vehicle Society of Canada Partners with the Toronto Hybrid Group, Announces Upcoming Electric Vehicle Show: EV FEST: Toronto's Premier Electric Vehicle Fall Festival

TORONTO, ON, May 25 - The Electric Vehicle Society of Canada (EVSC) reported today that their first ever "EV Show and Shine BBQ" in partnership with the Toronto Hybrid Group, on April 10, 2010, was such a success that they have finalized plans with Scarborough Toyota for a repeat event this coming fall.

"This past event was a huge success," said Howard Hutt, Founder and President of the EVSC.

"Some of our members showed off their homebrewed conversions, including one of the earliest High School EV Conversions. We had a few OEM electric vehicles, some great examples of Toyota Canada's hybrids and some PHEV's. We got to show off the next wave of automotive engineering while enjoying a BBQ. The next Show, 'EV Fest', will be even better because we'll have even more vehicles to show the public."

"With the Electric Vehicle Society of Canada and the Toronto Hybrid Group sponsoring the upcoming EV Fest on Sunday, October 17, 2010, this relationship allows us to get the word out even further to anybody that's even remotely interested in electric vehicles. We're holding it on the Sunday following Canadian Thanksgiving, and it is being hosted at the Lexus-Toyota on The Park dealership."

"This will give our visitors an opportunity to learn about Electric Vehicles (EV's), ask questions and learn about how accessible this technology actually is," said Hutt.
